

Position: Industrial Painter

Location: Bolton, ON

Wage: \$22/hr

Description...

We are looking for an experienced Industrial Painter to join our dynamic team. The ideal candidate will have expertise in applying

coatings to various substrates, including wood, metal, and plastic, with a particular focus on products for the window and door industry.

Shift: Day Shift - Monday to Friday

Responsibilities:

Prepare various substrates, such as wood, metal, and plastic, for painting, including cleaning, sanding, masking, and priming.

Apply a range of coatings, including water-based, solvent-based, and urethane paints, to windows, doors, and other related products using spray equipment and other tools.

Ensure proper mixing and matching of paints to meet specific color and texture requirements as per client specifications.

Conduct quality checks to ensure coatings meet industry and company standards for thickness, adhesion, and finish.

Maintain painting equipment and workspace, ensuring a safe and organized environment.

Adhere to all safety protocols, including the correct use of personal protective equipment (PPE) and compliance with company safety guidelines.

Record and report work progress, including materials used and time spent on each project.

Stay updated with the latest advancements in industrial painting techniques and coating technologies.

Qualifications:

Proven experience as an Industrial Painter, preferably within the fenestration or coatings industry.

Knowledge of various painting techniques and materials, especially those used in coating windows, doors, and other substrates.

Ability to mix and apply different types of coatings, including water-based, solvent-based, and urethane products.

Strong attention to detail with a focus on achieving high-quality finishes.

Ability to work effectively both independently and as part of a team.

Good physical condition and the ability to work in various positions for extended periods.
